Pacific Coastal Airlines

Re: Charitable Donation

Dear Pacific Coastal Airlines,

As Steven Cojocarú once said, "The gift that has been given to me says much about our capacity for great compassion and generosity, and I hope it sends a message to others about the importance of organ donation."

At the Children's Organ Transplant Society (COTS) we wish to emulate this same hope for children who are waiting or have received an organ transplant in British Columbia. As a registered charity (BN 89838 1801 RR0001), we support transplant children and their families through medical and non-medical funding, nutrition and mental health programming, camp, education and awareness, as well as parent and peer support.

We are a community and support network. A helping hand and shoulder to cry on. A space to heal and learn. We witness families as they move through the most traumatic experience of their life and provide financial, emotional, psychological, and social support to help them cope.

The generosity of folks like you allows us to spread hope to BC's transplant children and their families. We hope you will join our efforts through a donation towards our Children's Organ Transplant Society Golf Classic Auction Program. This event will be held on May 18, 2023 and represents our marquee fundraising event to support our initiatives.

Every month, we reach upwards of 10,000 people across our social media channels. With your support, we are happy to promote your business and share your immense generosity.

Thank you for your time and consideration. Together, we can brighten the lives of BC's transplant children and their families.

Warmly,

Debbie Bielech
Executive Director
