Name of Trainer/Training Institution _____
Phone number for Trainer/Institution _____

Attestation

By checking these boxes I certify the following statements to be true:

My service dog has been trained by a professional institution to perform tasks to assist me with my disability and I have included documentation to support.

I have Government issued service dog ID from the provinces of Alberta, British Columbia or Nova Scotia (please include a copy if this is applicable)

My service dog has been trained to behave in a public setting.

I understand that a trained service dog remains under control of its handler, does not act aggressively by barking, biting or jumping on or lunging at others and will not relieve itself outside of designated areas.

I understand that if my service dog behaves differently than that of a trained service animal, they may be treated as a pet, including charging fees and requiring it remain in a pet carrier.

Signature of Service Animal User/Handler

Date

Note: If your travel includes flights operated by multiple carriers, please contact all carriers directly for their guidelines on service dog handling.
